GUIDING PRINCIPLES
(Values)

**Honesty & Integrity:** We speak and act truthfully, acknowledging mistakes, keeping commitments and avoiding silence when it may be misleading. We do the right thing even when it is unpopular or nobody would know the difference.

**Service:** We value and embrace the opportunity and responsibility to serve our community. Our customers come first and we will strive to serve them in a friendly, fair, respectful and efficient manner.

**Accountability:** We are individually and collectively responsible for our behavior and performance. We conduct business in accordance with the highest professional and ethical standards.

**Quality:** We strive for continuous improvement in our products, services, programs and facilities. We seek to do the entire job right the first time.

**Respect:** We treat others with dignity and courtesy.

**Knowledge:** We are a learning organization. We encourage and promote continuous personal and professional development as a means of enhancing our team members’ ability to plan for the future, make good decisions and solve customer problems.

**Stewardship:** We recognize that we are spending other people’s hard-earned money. As such, we carefully manage the resources entrusted to us. We seek to control costs of operations, improve efficiency and provide the greatest and best value and return on invested funds.

**Collaboration:** We realize that our success is interdependent on the success of other organizations, businesses and institutions of our County, Region and State. We seek, therefore, to work cooperatively with these agencies to allocate our collective resources to achieve mutual goals.

**Self-Initiating, Self-Correcting:** We are proactive and flexible; quickly adapting to changes in political, market and financial conditions. We believe that our self-initiating, self-correcting behavior helps us learn and encourages and enables us to be independent and collaborative problem solvers.
