

Project No.	Project Name	Sponsor	Est. Project Cost	Matching Dollar Amount	Total Project Cost	Project Description	Eligible Yes or No	Supplemental Inoformation Provided Yes or No
1	Tugboat Reef at 18 mile site	Marco Island Naples Enrichment Reef Society. MINERS	\$99,635	\$0	\$99,635	Reef a 98' Tugboat off Collier County coast	Yes	No
2	Habitat Island Construction	City of Naples	\$1,500,000	\$1,391,500	\$2,891,500	Create a 1-5 acre man-made habitat island with Naples Bay	Yes	No
3	Stormwater Diversion & Aquifer Storage & Recovery	City of Naples	\$2,100,000	\$5,705,000	\$7,405,000	Aquifer Storage & Recovery System	Yes	No
4	Stormwater Beach Outfall Removal-Phase I	City of Naples	\$750,000	\$625,000	\$1,375,000	Elimination of two (2) stormwater outfall pipes from beach and redirect stormwater	Yes	No
5	Naples Bay Oyster Reef Construction	City of Naples	\$750,000	\$125,000	\$875,000	Construct fifteen (15) acres of oyster reefs in Naples Bay	Yes	No
6	Lake Manor Stormwater Park Retention	City of Naples	\$400,000	\$85,000	\$485,000	Restoration of 4.3 acre stormwater pond	Yes	No
7	Tigertail Beach/Sand Dollar Island Wildlife Observation Tower	CC Parks & Recreation	\$121,200	\$171,200	\$292,400	Construct a wildlife observation tower	Yes	Yes
8	Winchester Head Land Acquisition Project	CC Conservation Collier	\$812,800	\$0	\$812,800	Procurement of sixty (60) parcels in the Winchester Head multi-parcel acquisition area	Yes	Yes
9	Blueway Funding	CC Tourism	\$75,000	\$25,000	\$100,000	Complete remaining phases of the Paradise Coast Blueway trail	Yes	No
10	Stone Crab Festival	CC Tourism	\$90,000	\$25,000	\$115,000	Additional media campaign for festival	Yes	No
11	Promotion of CC New Artificial Reefs	CC Tourism	\$182,500	\$25,000	\$207,500	Establish a media campaign for new artificial reefs	Yes	No
12	Griffin Stormwater Improvement Project	CC Natural Resources Department	\$721,737	\$481,158	\$1,202,895	Establish water quality treatment and improve stormwater outlet for the Griffin Road stormwater system	Yes	No
13	Vanderbilt Lagoon Restoration Investigation Report	CC Natural Resources Department	\$50,000	\$0	\$50,000	Feasibility study for environmental restoration of Vanderbilt Lagoon	Yes	No
14	Long-term enhancement of tropical mangrove wetland ecosystem services through tidal creek restoration	Florida Gulf Coast University	\$2,750,000	\$0	\$2,750,000	Wetland area reconnection to Naples Bay along a one (1) mile tidal creek	Yes	Yes
15	Beach Conditions Reporting System	CC Natural Resources Department	\$52,500	\$39,052	\$91,552	Park Rangers will report beach conditions to website hosted on the Mote Marine Laboratory Sarasota Operations	Yes	No
16	Pine Ridge #1 Water Control Structure Replacement	CC Natural Resources Department	\$800,000	\$0	\$800,000	New water control structure	Yes	No

Project No.	Project Name	Sponsor	Est. Project Cost	Matching Dollar Amount	Total Project Cost	Project Description	Eligible Yes or No	Supplemental Information Provided Yes or No
17	North Belle Meade Spreader Swale	CC Natural Resources Department	\$7,000,000 to \$14,000,000	\$0	\$7,000,000 to \$14,000,000	New infrastructure to divert 1,000 cubic feet per second of surface water flow from the Naples Bay watershed	Yes	No
18	North Golden Gate Flowway Restoration Project	CC Natural Resources Department	\$1,003,000	\$0	\$1,003,000	Re- establish habitat and hydrologic connectivity within a NGGE flow-way	Yes	No
19	Haldeman Creek & Winter Park Weir Replacement	CC Natural Resources Department	\$700,000 to \$1,000,000	\$0	\$700,000 to \$1,000,000	Full replacement of two (2) weirs	Yes	No
20	Golden Gate City Stormwater Improvement Project	CC Natural Resources Department	\$16,500,000	\$0	\$16,500,000	Replacement of four (4) square miles of underground storm sewer pipe systems to include swale reconstruction and sediment traps	Yes	No
21	Eagle Creek Water Control Structure Replacement	CC Natural Resources Department	\$80,000 to \$600,000	\$0	\$80,000 to \$600,000	New Water Control System	Yes	No
22	South I-75 Canal Spreader Swale	CC Natural Resources Department	\$3,100,000	\$0	\$3,100,000	Restore the hydrology of the Belle Meade Flowway	Yes	No
23	Henderson Creek Diversion	South Florida Water Management District	\$3,000,000	\$3,000,000	\$6,000,000	Diversion of a portion of the flow of the Golden Gate Canal to the Henderson Creek Canal	Yes	No
24	Conserving and Protecting CC Gulf Natural Resources: Building a Team OCEAN Network	Rookery Bay National Estuarine Research Reserve	\$57,500	\$74,500	\$57,500	Establish Team Ocean Education Action Network (OCEAN) programs at four (4) locations	No	No
25	Enhancing Community Stewardship for Collier County's Gulf Coast: Environmental Education and Training for Youth and Adults	Rookery Bay National Estuarine Research Reserve	\$2,475,000	\$554,000	\$2,475,000	Collaborative efforts between six (6) agencies with the goal of building and sustaining an ethic of environmental stewardship of Gulf Coast natural resources through education and training	No	No
26	Restoring Oyster Reef Habitat in the Cocohatchee Estuary	Estuary Conservation Association Inc.	\$57,640	\$30,420	\$88,060	Restore Oyster reef communities in the Cocohatchee estuary	Yes	No
27	Littoral Area Planting Retrofit	CC Natural Resources Department	\$70,000	\$77,000	\$147,000	Retrofit a stormwater wet detention pond with littoral plantings	Yes	No

Project No.	Project Name	Sponsor	Est. Project Cost	Matching Dollar Amount	Total Project Cost	Project Description	Eligible Yes or No	Supplemental Information Provided Yes or No
28	Floating Island Stormwater Retrofit Project	CC Natural Resources Department	\$132,000	\$77,000	\$132,000	Retrofit a stormwater wet detention pond with a floating island	Yes	No
29	Red Maple Swamp Preserve Land Acquisition	CC Conservation Collier	\$667,695	\$0	\$667,695	Procurement of 37 parcels in the Red Maple Swamp Preserve acquisition area	Yes	Yes
30	Fruit Farm Creek Mangrove Restoration Project	Coastal Resources Group, Inc.	\$1,400,000	\$539,000	\$1,940,000	Plan, design and install infrastructure to restore tidal flows within a 225 acres of dead and stressed mangroves	Yes	Yes
31	Invasive Species Removal and Restoration of Habitat on CC Conservation and Adjacent Private Properties	CC Conservation Collier	\$1,152,230	\$1,414,000	\$2,566,230	Removal of invasive exotic species from ROWs along roads and canals that border conservation lands and links between these lands	Yes	Yes
32	Pepper Ranch Preserve Southern Wetland Restoration	CC Conservation Collier	\$76,500	\$15,400	\$91,900	Restore natural resources, ecosystems, and wildlife habitats within the Pepper Ranch Preserve	Yes	Yes
33	Livingston Road ASR Wells 2-5	CC Public Utilities	\$6,000,000	\$0	\$6,000,000	Increase supplemental IQ Water supply by using fresh groundwater wells and reclaimed water to charge ASR during the wet season and withdrawal water during the low flow high demand periods.	Yes	No
34	Golden Gate Canal Stormwater Aquifer Storage & Recovery Park	CC Public Utilities	\$8,000,000	\$0	\$8,000,000	Harvesting water from the Golden Gate canal to supplement the Irrigation Quality (IQ) Water System through an Aquifer Storage and Recovery (ASR) Program.	Yes	No
35	Corkscrew Lake Restoration, Flood Control, and Aquifer Storage & Recovery Project	CC Public Utilities	\$5,500,000	\$0	\$5,500,000	Restore Corkscrew Lake for improved area flood control and eventual use as a stormwater supply for aquifer storage and recovery wells to supplement the IQ Water supply.	Yes	No
