

Preserve Name	Acreage	Habitat type	Listed species Present	Accessibility	Water resource management	Connectivity	Conducive to Swap?	Reasoning
Alligator Flag	20	cypress; cypress-pine-cabbage palm	bromeliads and royal fern; fox squirrels, wading birds	moderate ; open to public with trail	provides surface water outfall to Immokalee Rd canal	connected to 60,000 + conservation lands		
Camp Keais Strand parcels	32.5	cyress; freshwater marsh; wet prairie; cypress-pine-cabbage palm; pine flatwood	unknown, but FNAI identifies 7 possible plants; 11 possible wildlife species including Florida panther	low - no known access	within identified flowway	within florida Forever CREW project area and connected to SSA-13 (7,414 ac)		
Caracara Prairie	370	priaire; depressional marsh/wet prairie; mesic flatwoods; shrub and brush	no listed plant species known; 9 listed wildlife species documented including Florida panther;	moderate - open to the public; no parking must access through CREW lands; has trails	buffers Crew Marsh	connected to 60,000 + conservation lands		

Cocohatchee Creek	3.64	hydric hammock; scrubby flatwoods; mesic pine flatwood; floodplain marsh	bromeliads; gopher tortoises; wading birds	high - open to the public	buffers Cocohatchee Creek	connected to Southhampton PUD preserve lands		
Freedom Park	12	tidal swamp; freshwater forested wetlands	12 listed plant species observed; 7 listed wildlife species observed	high	Buffers Gordon River headwaters; part of stormwater cleansing system	connected to 40-acre Estuary/grey Oaks preservation area		
Gordon River Greenway	43	mangrove swamp; pine flatwoods; mixed wetland hardwoods	2 listed bromeliad species known; 7 listed species observed	high - open to the public		part of 150 acre Gordon River Greenway Park		
Logan Woods	5.69	cypress-pine-cabbage palm	4 listed plant species documented; no listed wildlife species known	moderate - open to the public - no parking, walking access only; has trail	stored local surface water - aids with flooding	isolated within urban area		

Otter Mound	2.46	tropical hardwood hammock; shell mound	8 listed plant species documented; Florida tree snail present; stopover for migrating bird species	high - open to the public	n/a	isolated within residential area		
McIlvane Marsh	300	mangrove forest; inland ponds and sloughs; salt marsh; pine flatwoods; mixed wetland hardwoods	no listed plant species known; 10 listed wildlife species documented - many are birds	low	protects coastal properties from storm surge; buffers gulf	connected to 10,000 NWR, and Rookery Bay		

Nancy Payton	75	mesic pine flatwoods	5 listed plant species documented; 3 listed wildlife species documented including Florida panther, GTs and RCWs	moderate	buffers golden gate canal; contributes to aquifer recharge	in rural area		
Panther Walk	9.54	cypress	2 listed bromeliad species; no listed wildlife species observed	moderate	within recognized flowway; aids in flooding	within identified preservation area		
Pepper Ranch	2,512	cypress; wetland slough, freshwater marsh; mixed wetland hardwoods; oak hammock; pasture; pine flatwoods	14 listed plant species documented; 9 listed wildlife species documented, including Florida panther	high - open to the public	buffers Lake Trafford, provides aquifer recharge	connected to 60,000 acre CREW lands and 7,414 SSA-13		

Railhead Scrub	130	scrubby pine flatwoods; saw palmetto; xeric oak scrub; cypress; wet prairie; hydric pine flatwoods	10 listed plant species documented; 1 listed wildlife species - GT	low - currently no good public access	surficial aquifer recharge	adjoins 8-acre Railhead Industrial Park preserve	
Red Maple Swamp	200	wetland hardwood forest	2 listed plant species documented; 4 listed species documented	low - wetlands, no trails	entirely wetlands; surficial aquifer recharge	connected to Corkscrew Swamp Sanctuary , Bird Rookery Swamp and CREW lands - 60,000 ac +	

Rivers Road	78	pine flatwoods; mixed wetland hardwoods; cypress; freshwater marsh; cypress- pine-cabbage palm	3 listed plant species; 3 listed wildlife species including Florida panther	moderate - no trails yet	contains wetlands; contributes to surficial and lower Tamiami aquifers	contiguous with 100-acre conservation area and adjoins protected wildlife corridor		
Shell Island	83	freshwater mars; salt marsh; mangrove forest; brackish pond	4 listed plant species; 6 listed wildlife species - primarily birds	not readily accessible though bordering a paved road - no trails, entirely wetlands	Entirely wetlands; buffers Rookery Bay, provides flood protection for developed properties	contiguous with Rookery Bay Estuarine Research Reserve		

Wet Woods	48	mangrove swamps; tidal marsh; freshwater marsh; pine flatwood	7 listed plant species; 4 listed wildlife species	not accessible at present	buffers Outstanding Florida Water - Wiggins Pass	contiguous with 200+ acres of conservation lands along Wiggins Pass and close to Barefoot Beach preserve		
Winchester Head	75	cypress strand; freshwater marsh; mixed wetland hardwoods; cypress-pine-cabbage palm	3 listed plant species; no listed wildlife observed	not readily accessible though bordering a paved road - no trails	contributes to surficial aquifer; aids with flooding	part of the North Golden Gate Estates Flowway
