SECTION TWO: ADOPTION OF AMENDMENTS TO THE LAND DEVELOPMENT CODE

SUBSECTION 2.A: AMENDMENTS TO SECTION 2.03.01 AGRICULTURAL DISTRICTS

Section 2.03.01, Agricultural Districts, of Ordinance 04-41, as amended, the Collier County Land Development Code, is hereby amended to read as follows:

2.03.01 Agricultural Districts

A. Rural Agricultural District (A). The purpose and intent of the rural agricultural district (A) is to provide lands for agricultural, pastoral, and rural land uses by accommodating traditional agricultural, agricultural related activities and facilities, support facilities related to agricultural needs, and conservation uses. Uses that are generally considered compatible to agricultural uses that would not endanger or damage the agricultural, environmental, potable water, or wildlife resources of the County, are permissible as conditional uses in the A district. The A district corresponds to and implements the
Agricultural/Rural land use designation on the future land use map of the Collier County GMP, and in some instances, may occur in the designated urban area. The maximum density permissible in the rural agricultural district within the urban mixed use district shall be guided, in part, by the density rating system contained in the future land use element of the GMP. The maximum density permissible or permitted in A district shall not exceed the density permissible under the density rating system. The maximum density permissible in the A district within the agricultural/rural district of the future land use element of the Collier County GMP shall be consistent with and not exceed the density permissible or permitted under the agricultural/rural district of the future land use element.

1. The following subsections identify the uses that are permissible by right and the uses that are allowable as accessory or conditional uses in the rural agricultural district (A).
   a. Permitted uses.
      2. Agricultural activities, including, but not limited to: Crop raising; horticulture; fruit and nut production; forestry; groves; nurseries; ranching; beekeeping; poultry and egg production; milk production; livestock raising, and aquaculture for native species subject to Florida Fish and Wildlife Conservation Commission permits.

            b) ranching;
            c) poultry and egg production;
            d) milk production;
            e) livestock raising; and
            f) animal breeding, raising, training, stabling or kenneling.
         ii. On parcels less than 20 acres in size, individual property owners are not precluded from the keeping of the following for personal use and not in association with a commercial agricultural activity provided there are no open feed lots:
a) Fowl or poultry, not to exceed 25 in total number; and

b) Horses and livestock (except for hogs) not to exceed two such animals for each acre.

   Notwithstanding the above, hog(s) may be kept for a 16 week period in preparation for showing and sale at the annual Collier County Fair and/or the Immokalee Livestock show. The following standards shall apply:

   a) One hog per child enrolled in a 4-H Youth Development Program, Collier County Fair Program or similar program is permitted. In no case shall there be more than 2 hogs per acre.

   b) Premises shall be fenced and maintained in a clean, healthful, and sanitary condition.

   c) Premises or roofed structure used for the sheltering, feeding, or confinement of such animals shall be setback a minimum of 30 feet from lot lines and a minimum of 100 feet from any dwelling unit on an adjacent parcel of land.

B. Estate District (E). The purpose and intent of the estates district (E) is to provide lands for low density residential development in a semi-rural to rural environment, with limited agricultural activities. In addition to low density residential development with
limited agricultural activities, the E district is also designed to accommodate as conditional uses, development that provides services for and is compatible with the low density residential, semi-rural and rural character of the E district. The E district corresponds to and implements the estates land use designation on the future land use map of the Collier County GMP, although, in limited instances, it may occur outside of the estates land use designation. The maximum density permissible in the E district shall be consistent with and not exceed the density permissible or permitted under the estates district of the future land use element of the Collier County GMP as provided under the Golden Gate Master Plan.
