

EXECUTIVE SUMMARY

Recommendation to approve payment for a Joint Coastal Permit in the amount of \$22,970 for the 15-year FDEP permit under DEP File No. 0311817-001-JC for beach renourishment, authorize all necessary budget amendments, and make a finding that this item promotes tourism (Project No. 80165).

OBJECTIVE: To obtain FDEP 15-year Permit for beach renourishment through 2030.

CONSIDERATIONS: The existing 10-year FDEP permit expired in January 2015 and was extended 2-years until January 2017. Staff began developing a new FDEP 15-year permit application during the summer of 2014. An FDEP application has been submitted in sufficient detail to determine permit fees. Approval of this item will allow the new 15-year FDEP permit application to continue to be developed and processed.

FISCAL IMPACT: Funding for the proposed 15-year FDEP permit and estimated related public notice costs required for permit is not presently included in the budget. However, sufficient funding is available in Tourist Development Tax Fund (195) reserves. A budget amendment will be necessary to move funds from reserves into Project No. 80165, County Beach Analysis. Grant funding for this item may be requested for reimbursement from a grantor agency.

GROWTH MANAGEMENT IMPACT: There is no growth management impact related to this action.

ADVISORY COMMITTEE RECOMMENDATIONS: At the May 14, 2015 CAC meeting this item was unanimously recommended for approval by an 8 to 0 vote.

LEGAL CONSIDERATIONS: This item has been approved as to form and legality and requires majority vote for approval. – CMG

RECOMMENDATION: That the Board of County Commissioners approves payment for a Joint Coastal Permit in the amount of \$22,970 for the 15-year FDEP permit under DEP File No. 0311817-001-JC for beach renourishment, authorize all necessary budget amendments, and make a finding that this item promotes tourism (Project No. 80165).
