Hi Melissa and Christal,

I just left a message on Melissa's cell phone. I received the funding application "Go-List" and I'm sorry to tell you that unfortunately the Pepper Ranch application was not funded. There were a lot of applications and competition for funds state-wide. We also had several state wide projects from this FY that will need to carry over during next FY so they will also require some FY1617 funds. Based on a conversation with one of my supervisors, as with many other applications that weren't funded, the Pepper Ranch application scored below the funding line. As you know, all applications are scored and ranked by a team of FWC staff from our different divisions (HSC, Fisheries, Wildlife, etc.). I believe this is a good project and has a lot of potential for being funded if we wanted to try again. We can re-submit the application this December for FY1718 if you'd like. I'll work on getting some insight about how we may be able to improve our overall score for this application. I'll give you a call very soon to discuss this. Sorry again for the bad news. Give me a call if you'd like.
