

## Rural Land Stewardship Area Restudy

### DRAFT Public Outreach

As suggested by the Growth Management Oversight Committee, staff will schedule all public workshops at the North Regional Park. These workshops can be planned for once a month to move the process along in a timely manner. We will calendar the workshops and notify property owners and stakeholders of the complete workshop schedule.

The intent will be to engage the public, landowners and stakeholders in a series of public workshops to review the original plan and the 5-year review recommendations.
