

PUBLIC WORKSHOP SERIES PLANNING THE FUTURE OF EASTERN COLLIER COUNTY

Join Us! Your input is important to the future of Collier County.

The Rural Lands Stewardship Area plan, an area of 195,000 acres surrounding Immokalee, guides the future growth in eastern Collier County. The land use strategy, adopted in 2002, is designed to preserve natural resources, retain agriculture and promote sustainable future development. To date, over 50,000 acres of natural resources have been protected at no cost to the public. We will be updating the plan and your input and ideas are important! A series of public workshops will cover many topic areas. Please join us at the workshops, or participate by providing your comments via email to RLSArestudy@colliercountyfl.gov

Public Workshop Series 2018

Location: North Collier Regional Park Exhibition Hall

Time: 6:00 p.m.

Date: March 22, 2018
Retaining Agriculture
