Feds release advice on kids’ concussions

Lindsey Tanner

CHICAGO — New children’s concussion guidelines from the U.S. govern-
ment include requiring medical evaluation and in some cases clearing
children to return to school after a concussion.

Signs of potentially more serious injuries that may warrant CT imaging
should include vomiting, lethargy and severe, worsening headaches, accord-
ing to the new recommendations.

The guidelines from the U.S. Centers for Disease Control and Prevention are
the first broad evidence-based recommenda-
tions for diagnosing and treating children’s concussions, the researchers say.

They evaluated 25 years of scientific
research on managing concussions in children and came up with the
strongest evidence of benefit.

The American Academy of Neurology has similar evidence-based guidelines, but
strictly for sports concussions in child and adult athletes and focused on
restricting return to play. The American Academy of Pediatrics also has guid-
elines for managing sports concussions, and for returning to school after a con-
cussion.

The CDC’s guidelines are for concus-
sions from all causes, including falls, sports and car accidents. They recom-
med seeing a doctor from a physical and mental health perspective.

The guidelines are based on a report of 25 years of research and current rec-
ommendations on managing concussions in children.

The guidelines highlight the risk of CT scans and X-rays for detecting concus-
sions. They are not routinely advised for non-sports-related concussions.

CT scans are recommended for children who have been involved in vehi-
cle accidents or experienced combined head and spine injuries.

"Some children and teens think con-
cussions aren’t serious or worry that if they report a concussion they will lose
their position on the team or look weak. Remind them that it’s better to miss one

game than the whole season," he said.

By at least estimating, at least 1 million U.S. children get concussions each
year, although the true frequency is unknown because there is no national or
to track them and many go unreported.

The CDC has proposed developing a surveill-
system similar to the one that tracks TB and the new guidelines, published in JAMA Pediat-
rics, are aimed to improve detection and treat-
ment.

The guidelines provide important ad-
vice for parents and doctors on managing
kids’ concussions and could con-
tribute to a “personalized approach to state-of-the-art care,” according to a
journal editorial by brain injury experts at the Medical College of Wisconsin
and University of California, San Francisco.

Concussions, also called mild trauma-

cric head injury, are caused by a bump or hit to the head. The impact causes
the brain to bounce or twist, potentially damaging brain cells. Repeated concus-
sions can be linked with a debilitating brain disease found in autopsies
on some retired football players.

NOTICE OF PUBLIC HEARING
NOTICE OF INTENT TO CONSIDER
AN ORDINANCE

Notice is hereby given that the Collier County Board of County Commissioners will hold a public hearing on September 25, 2018 commencing at 9:00 a.m. in the Board of County Commissioners Chamber, Third Floor, Collier County Government Center, 13999 E. Tamiami Trail, Naples, FL.

The purpose of the hearing is to consider:

AN ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF COLLIER COUNTY FLORIDA AMENDING ORDINANCE NO. 89-05, AS AMENDED, THE COLLIER COUNTY GROWTH MANAGEMENT PLAN FOR THE UNINCORPORATED AREA OF COLLIER COUNTY, FLORIDA, SPECIFICALLY AMENDING THE FUTURE LAND USE ELEMENT AND FUTURE LAND USE MAP AND MAP SERIES BY ADDING THE SEED TO TABLE COMMERCIAL SUBDISTRICT TO THE URBAN-COMMERCIAL DISTRICT AND CHANGING THE DESIGNATION OF PROPERTY FROM URBAN RESIDENTIAL SUBDISTRICT TO SEED TO TABLE COMMERCIAL SUBDISTRICT TO ALLOW OFF-SITE EMPLOYEE PARKING FOR THE TABLE TO TABLE COMMERCIAL DEVELOPMENT IN THE CARLTON LAKES PLANNED UNIT DEVELOPMENT AND ALLOW COLLIER AREA TRANSIT (CAT) PARK & RIDE AND COUNTY UTILITY FACILITIES AND FURTHERMORE, RECOMMENDING TRANSMITTAL OF THE ADOPTED AMENDMENT TO THE FLORIDA DEPARTMENT OF ECONOMIC OPPORTUNITY, PROVIDING FOR SEVERABILITY AND PROVIDING FOR AN EFFECTIVE DATE.

The subject property consisting of 6.35 acres is located north of the terminus of Piper Boulevard at the northwest corner of the intersection of Livingston Road and Immokalee Road in Section 24, Township 48 North, Range 32, East, Collier County, Florida. [PL-2017-00017785]

All interested parties are invited to appear and be heard. Copies of the proposed ORDINANCE will be made available for inspection at the GMD Zoning Division, Comprehensive Planning Section, 2900 N. Horseshoe Dr., Naples, FL, between the hours of 8:00 AM and 5:00 PM, Monday through Friday. Furthermore, the minutes will be made available for inspection at the Collier County Clerk’s Office, Fourth Floor, Suite 401, Collier County Government Center, East Naples, one week prior to the scheduled hearing. Any questions pertaining to the documents should be directed to the GMD Zoning Division, Comprehensive Planning Section. Written comments filed with the Clerk to the Board’s Office prior to September 25, 2018 will be read and considered at the public hearing.

If a person decides to appeal any decision made by the Collier County Board of County Commissioners with respect to any matter considered at this meeting or hearing, he will need a record of that proceeding, and for such purpose he may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.

If you are a person with a disability who needs any accommodation in order to participate in this proceeding, you are entitled, at no cost to you, to the provision of certain assistance. Please contact the Collier County Facilities Management Division, located at 3325 Tamiami Trail East, Suite 131, Naples, FL 34102-5266, (239) 252-8200, at least two days prior to the meeting. Assisted listening devices for the hearing impaired are available in the Board of County Commissioners Office.
