Staff requested a motion to authorize a transfer of $50,000 from the Capital Outlay budget to Operating Expense to fund landscaping replacements.

VIII. Old Business

A. Refurbishment of St. Andrews Entryway Monuments

Mr. Schumacher and Mr. Branco met with Lykins Signtek to review the monument project. Lykins commented on tile construction as follows:
- Hot weather generally should not pose a problem to the tile installation including causing significant expansion of the material damaging joints.
- Drilling to attach lettering to the tile surface has historically not been problematic. Tiles damaged by drilling will be replaced at the vendor’s expense.

During Committee discussion the following was addressed:
- Tile size options should be explored. Mr. McGee recommends a 12 x 12 tile.
- Research feasibility of gluing the graphics to the tile.
- Investigate creation of a template to attach as a separate entity.

Mr. Schumacher will solicit information on tile size options and alternatives to attaching the “Deed Restricted Community” lettering directly to the surface of the sign.
